Riya Shah

Aspiring Data Analyst

Ahmedabad, Gujarat | riya.shah@example.com | linkedin.com/in/riya-shah-sample | github.com/riya-shah-sample

SUMMARY

Final-year Computer Engineering student who enjoys turning raw data into clear business insights. Comfortable with Python, SQL and Excel, and looking for an entry-level Data Analyst role.

EDUCATION

B.E. Computer Engineering, Westbrook Institute of Technology, Ahmedabad (2023 - 2027)
CGPA 8.4 / 10. Coursework: Python for Data Science, Database Management Systems, Probability and Statistics.

Higher Secondary (Science), Greenfield School, Ahmedabad (2023)
86%

SKILLS

Languages: Python, SQL, C
Data tools: Pandas, Excel, Tableau, Matplotlib, Seaborn
Other: Statistics, HTML, Git

PROJECTS

Retail Sales Dashboard

- Cleaned 50,000 rows of sales data with Pandas and built an interactive Tableau dashboard tracking revenue by region and month.
- Found three under-performing product categories and presented the findings in a class case study.

Student Performance Analysis

- Used SQL and Excel pivot tables to analyse the exam results of 1,200 students and reported the factors most linked to low scores.

Tech Salary and Skills Analyzer

- Built a Streamlit app that computes salary statistics with SciPy and charts skill demand with Seaborn.

CERTIFICATIONS

- Data Analytics Professional Certificate (online), 2025
- SQL for Data Science (online course), 2025

ACHIEVEMENTS

- Runner-up, college-level data hackathon, 2025
- Core member, college coding club
